

Remote Learning Policy 2024  
St Patrick's Catholic Primary School

Date: 30 September 2024

Review: Annually

Responsibility: Mrs J M Gill (Headteacher)

## Statement of intent

At St Patrick's Catholic Primary School, we understand the need to continually deliver high quality education, including during periods of remote learning – whether for an individual pupil or many. We recognise the importance of maintaining high expectations in all areas of school life and ensuring that all pupils have access to the learning resources and support they need to succeed. Through the implementation of this policy, we aim to address the key concerns associated with remote learning, such as online safety, access to educational resources, data protection, and safeguarding.

This policy aims to:

- Minimise the disruption to pupils' education and the delivery of the curriculum.
- Ensure provision is in place so that all pupils have access to high quality learning resources.
- Protect pupils from the risks associated with using devices connected to the internet.
- Ensure staff, parent, and pupil data remains secure and is not lost or misused.
- Ensure robust safeguarding measures continue to be in effect during the period of remote learning.
- Ensure all pupils have the provision they need to complete their work to the best of their ability, and to remain happy, healthy, and supported during periods of remote learning.

## 1. Aims

This remote learning policy aims to:

- Ensure consistency in the approach to remote learning for pupils who aren't in school
- Set out expectations for all members of the school community with regards to remote learning
- Provide appropriate guidelines for data protection

## 2. Use of remote learning

All pupils should attend school, in line with our attendance policy. Remote education is not viewed as an equal alternative to attendance in school. Pupils receiving remote education will be marked absent in line with the Pupil Registration Regulations. We will consider providing remote education to pupils in circumstances when in-person attendance is either not possible or contrary to government guidance.

This might include:

Occasions when we decide that opening our school is either:

- Not possible to do safely
- Contradictory to guidance from local or central government

Occasions when individual pupils, for a limited duration, are unable to physically attend school but are able to continue learning, for example because:

- They have an infectious illness
- They are preparing for or recovering from some types of operation
- They are recovering from injury and attendance in school may inhibit such recovery
- Their attendance has been affected by a special educational need or disability (SEND) or a mental health issue

The school will consider providing pupils with remote education on a case-by-case basis. In the limited circumstances when remote learning is used, we will:

- Gain mutual agreement of remote education by the school, parents/carers, pupils, and if appropriate, a relevant medical professional. If the pupil has an education, health and care plan (EHCP) or social worker, the local authority (LA) will also be involved in the decision

- Put formal arrangements in place to regularly review it and identify how to reintegrate the pupil back into school
- Identify what other support and flexibilities can be put in place to help reintegrate the pupil back into school at the earliest opportunity
- Set a time limit with an aim that the pupil returns to in-person education with appropriate support

Remote education will not be used as a justification for sending pupils home due to misbehaviour. This would count as a suspension, even if the pupil is asked to access online education while suspended.
